Motion Sensor Mode

The sensor for turning it ON/OFF is so nice and convenient. Easily control the headlamp even if you have gloves on, won't dirty the unit as well as the gloves.

Press the sensor button when the light is on, then you can switch the light ON/OFF by waving your hand. If there is any obstacle within 10 cm in front of the sensor receiver the light will also ON/OFF when sensor mode.

USB-C Rechargeable

Built-in 1200mah lithium battery

The image features a black device with a USB-C port. A yellow magnifying glass highlights the port, showing a close-up of the internal contacts. Below the device, a white USB-C cable is shown. The text 'USB-C' is written in white on a black background next to the cable. To the right, a vertical list of compatible devices is shown: a laptop labeled 'COMPUTER', a white power bank labeled 'POWER BANK', a white AC adapter labeled 'AC ADAPTER', and a white car charger labeled 'CAR CHARGER'. At the bottom, two dark blue boxes contain icons and text: a battery icon with 'High capacity battery' and a clock icon with 'Ultra long standby'.
